Dear ASE Colleagues,

*******VERY URGENT*******

FEAS is now providing new services to possible contributors through advertising in our Semi Annual Book to raise funds in order to offset the cost of the publication. Note that costs are per publication, the first publication as you know will be printed and the second in cd form with limited printing (as was done for the Semi Annual Report in 2005).

To make it easier this year we have attached an email message (also included it past the ***** line **below**) that can be copied and pasted into a message and sent to the possible contributore below.

For the mutual benefit of all please copy and paste the message below into an email or the post and sent to:

1. Broderage Firms, Banks and intermediatires that are members of your stock exchange.
2. Issuers in your markets.
3. Security/Capital Market related goods and services companies; both domsetic and international. (Such as: central depositories, data vendors, software and hardware companies, training institutions, publishing houses and others that advertise in industry and similar publications).
