Auditors' Report on Condensed Interim Financial Statements

To Chairman and Board of Directors National Steel Industry Public Shareholding Company Amman - The Hashemite Kingdom of Jordan

We have audited the condensed interim financial statements of National Steel Industry Company (Public Shareholding Company), which comprise the condensed interim statement of financial position as at September 30st 2018, and the condensed interim statement of comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows for the period then ended, and notes to condensed interim financial statements, including summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with the requirements of International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to form an opinion about these condensed interim financial statements based on our review.

We conducted our audit in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements is not prepared in all material respects in accordance with the requirements of IAS 34.

The company head office and production facilities are located in Zarqa - Hashemite kingdom of Jordan.

The condensed interim financial statements have been approved by the Board of Directors .

(2) Summary of Accounting Policies

2.1 Basis of Preparation

The condensed interim financial statements for National Steel Industry Public Shareholding Company have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" (IAS 34), as issued by the International Accounting Standards Board (IASB). These condensed interim financial statements do not include all of the information and disclosures required for full annual financial statements and should be read in conjunction with the company's audited financial statements for the year ended 31 December 2017. The results of operations for the interim period reported are not necessarily indicative of results expected for the year.

The condensed interim financial statements are prepared under the historical cost convention.

The condensed interim financial statements are presented in Jordanian Dinars which represent the functional currency of the company.

2.2 Changes in accounting policies and disclosures

The accounting policies used in the preparation of the condensed interim financial statements are consistent with those disclosed in the company's financial statements for the year ended 31 December 2017, no other not yet effective standards that may have material impact on the company's condensed interim financial statements.

(3) Financial risk management

3-1 Financial risk elements

The company is exposed to various financial risks through its' business cycle. Overall risk management program is intended to reduce the probable negative impacts on financial results to the minimum.

a. Market risk

Most of the company transactions are in Jordanian Dinars and the US Dollars. The exchange rate between the two currencies is fixed, so the impact of currency risk is not material to the consolidated financial statements.

b. Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The company do not foresee any major losses resulting from other parties failing to commit to their obligation.

3-2 Fair value

Financial instruments comprise of financial assets and financial liabilities. Financial assets consist of cash on hand and at banks, accounts receivable and other debt balances. Financial liabilities consist of accounts payable, loans and other credit balances.

The fair value of financial instruments are not materially different from their carrying values at year end.

(4) Judgments, estimates and assumptions

The company maintains a continuous evaluation process of the accounting estimates based on previous experience and other factors including anticipating of future events assumed to be reasonable based on current circumstances.

Accounting estimates are rarely equals related actual results. Such judgments, estimates and assumptions that may result in major risk and requires material adjustments on book values of assets and liabilities during a fiscal year are as follows:

a. Allowance for doubtful debts

The company provides for the decrease in trade receivables value as per the accounting policies Realized values from trade receivables are compared to recorded values of these receivables in order to determine the provision amount. These calculations require judgmental efforts.

b. Income tax

The company is subject to income tax which requires major judgments to determine tax provision. The company identifies income tax liability based on wither tax assessment process will produce extra taxes. If the final assessment differs from identified liability, then variance will affect current year income tax at the time those variances arise.
