Independent Auditor's Report on the Review of the Condensed Consolidated Interim Financial Information

To the Chairman and Members of Board of Directors Al-Eqbal Investment Company

(Public Shareholding Company)

Amman - Jordan

We have reviewed the accompanying condensed consolidated interim financial information of Al-Eqbal Investment Company – Public Shareholding Company- and it's subsidiaries ("the Group") as at 30 September 2018 which comprise condensed consolidated interim statement of financial position and the related condensed consolidated interim statement of profit or loss and other comprehensive income, condensed consolidated interim statement of Changes in Shareholders' Equity and condensed consolidated interim statement of cash flows for the nine months period then ended, and the notes to the condensed consolidated interim financial information. Group's management is responsible for the preparation and presentation of these condensed consolidated interim financial information in accordance with International Accounting Standard number (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at and for the nine months ended 30 September 2018 is not prepared, in all material respects, in accordance with International Accounting Standard number (34) "Interim Financial Reporting".

Emphasis of matter

Without qualifying on our conclusion, we draw attention to note (14) to the condensed consolidated interim of financial information which describes that the group have tax lawsuits related to the years from 2009 to 2015, approximately JD 16 million and legal compensation approximately JD 10 million. The lawsuits are still pending in the tax courts. The Group's Management and legal consultant opinion is that the probability of winning the case is high and the recorded provisions are adequate. The ultimate outcome of the lawsuits cannot reliably be determined and accordingly, no additional provision has been recorded in the condensed consolidated interim of financial information against any consequences that may arise on the Group.

Other Matter

These financial statements are translated copy to the English language of the original condensed consolidated interim financial information issued in Arabic language.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

1) **GENERAL**

Al-Eqbal Investment Company-PLC (International Tobacco and Cigarettes PLC previously) was incorporated in accordance with Jordan Companies temporary Law no. (1) for the year 1989 as a Jordanian public shareholding company, and registered in the ministry of industry and trade of Jordan under no. (218) on June 1, 1992. with authorized paid up capital amounted to JD 5 millions (1 JD /share).

On October 10, 1993 the capital has been raised through special offering by 100% of the capital to reach JD 10 millions. On May 5, 1998 the capital has been raised through distributing free shares by 20% of the capital to reach JD 12 million. On April 16, 2001 the Company has merged with Eqbal for Financial Investments Company to be the capital JD 14,304,675. On April 15, 2002 the capital has raised through distributing free shares by 5% of the capital to reach JD 15 million. On April 10, 2005 the capital has been raised through distributing free shares by 10% to reach JD 16,500,000. On April 16, 2006 the capital has been raised through distributing free shares by 21% of capital to reach JD 20 millions. On February 25, 2013 the capital has raised through distributing free shares by 25% of the capital to reach JD 25 millions.

The general assembly decided on March 24, 2016 to increase its capital by 5,000,000 shares through capitalizing the retained earnings by an amount of JD 5,000,000 to become 30 millions (1 JD/share).

The general assembly decided in the extraordinary meeting on June 3, 2018 to increase its capital by 30,000,000 shares through capitalizing retained earnings by an amount of JD 30,000,000 to become the authorized and paid-up capital of 60,000,000 (1 JD/share). The Company completed its legal procedures of increasing the capital in the Ministry of Industry and Trade on July 17, 2018.

The company's main objectives include the following:

- Owning commercial agencies.
- Trade intermediaries (except dealing with International stocks).
- Engaging in brokerage and trading tenders.
- Import and export for the company operations.
- Guaranty of other parties obligations relevant to the interest of the company.
- Investment of the Company's surplus funds in the appropriate way.
- Owning of movable and immovable funds, for achieving the company's objectives.
- Owning of land and real estate for achieving the company's objectives.
- Contracting with any government, commission, authority, company, institution or individual interested in the goals and objectives of the company or any of them.
- Borrowing money from banks.

The Board of Directors approved the condensed consolidated interim financial information on October 29, 2018.

2) <u>BASIS OF PREPARATION OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION</u>

a) Statement of compliance

- The condensed consolidated interim financial information have been prepared in accordance with IAS 34 "Interim Financial Reporting" which selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2017.
- These condensed consolidated interim financial information should be read with the audited consolidated financial statements for the year ended December 31, 2017. As well as the financial performance for the condensed consolidated interim financial period ended September 30, 2018 does not necessarily give an indication for the expected financial performance for the year that will be ending on December 31, 2018. In addition, no appropriation on the profit for the period has been made to reserves, which will be appropriated in the annual consolidated financial statements at the end of the year 2018.

The Group accounts for business combinations of a subsidiary in the consolidated statement of profit and loss and other comprehensive income starting from the date of the acquisition which is the date when control is transferred to the Group.

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

Any gain on bargain purchases is recognized in the condensed consolidated interim statement of profit or loss and other comprehensive income immediately. Transactions costs are expensed as incurred in the condensed consolidated interim statement of profit or loss and other comprehensive income except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationship. Such amounts are generally recognized in the condensed consolidated interim statement of profit or loss and other comprehensive income.

Contingent consideration payable is measured at fair value at the acquisition date If the contingent consideration is classified as shareholders' equity, subsequent changes in the fair value of the contingent consideration are recognized in the condensed consolidated interim statement of profit or loss and other comprehensive income.

Non-controlling interest are measured at their proportionate share of the acquirer's identifiable net assets at the acquisition date.

On the loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary and are excluded from condensed consolidated interim financial information. Any surplus or deficit arising on the loss of control is recognized in the condensed consolidated interim statement of profit or loss and other comprehensive income.

Balances, transactions and unrealized profits and expenses resulted from transactions within the group are eliminated when preparing these condensed consolidated interim financial information.

c) Use of judgments and estimates

- These condensed consolidated interim financial information have been prepared in accordance with IAS 34, "interim financial reporting" which requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.
- In preparing these condensed consolidated interim financial information, significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty in preparing these condensed consolidated financial information were the same as those that applied to the financial statements as at and for the year ended 31 December 2017.

3) SIGNIFICANT ACCOUNTING POLICIES

A - New Currently Effective Standards

The accounting policies applied by the company in these condensed interim financial information for the nine months ended September 30, 2018 are the same as those applied by the Company in its financial statements for the year ended December 31, 2017, except:

- IFRS 9 Financial Instrument (effective on January 1, 2018).
- IFRS 15 Revenue from contracts with customers (effective on January 1, 2018).
- IFRS 2 Classification and Measurement of Share-based payments transactions (effective on January 1, 2018).
- IFRS 40 Transfer of investment property (effective on January 1, 2018).
- Annual improvements on IFRSs 2014-2016 Cycle (Amendments to IFRS 1 and IAS 28) (effective on January 1, 2018).
- Amendments IFRS 9 with IFRS 4 (effective on January 1, 2018).
- IFRIC 22 Foreign currency transactions and advance consideration (effective on January 1, 2018).
- IFRIC 14 Regulatory Deferral Accounts.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

B- Changes in Significant Accounting Policies

IFRS 9 Financial Instruments:

The group has applied IFRS 9 from January 1, 2018, where the standard specify the requirements of recognition and measurement of financial assets and liabilities and certain contracts for the purchases on sales of non-financial item of IAS 39 (Recognition and measurement).

The details of the new significant accounting policies, the nature and impact of changes in previous accounting policies are as following:

Classification and measurement of financial assets and financial liabilities:

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale.

The adoption of IFRS 9 has not had a significant effect on the Group's accounting policies related to financial liabilities and derivative financial instruments (for derivatives and measurement of instruments). The impact of IFRS 9 on the classification and measurement of financial assets is out below:

Under IFRS 9, on initial recognition, a financial assets is classified as measured at: amortized costs; Fair value through other comprehensive income – debt investment; Fair value through other comprehensive income – equity investment; or fair value through profit and loss.

The classification of financial assets under IFRS 9 is generally based on the business model in which a financial assets is managed and its contractual cash flow characteristics.

Financial assets:

The Group has applied early for the first phase of IFRS 9 as from 1 January 2011 based on the Securities commissions' request. There were no material differences between the first phase of the standard and the final version of the Standard issued on 24 July 2014.

Under IFRS 9, on initial recognition, a financial assets is classified as measured at: amortized costs; Fair value through other comprehensive income – debt investment; Fair value through other comprehensive income – equity investment; or fair value through profit and loss. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial assets is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is financial assets in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at fair value through profit and loss:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows.
- Its contractual terms give rise in specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at fair value through other comprehensive income if it meets both of the following conditions and is not designated as at fair value through profit and loss:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment – by – investment basis.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

All financial assets that are did not measured at amortized cost or at fair value through the other comprehensive income statement mentioned above should be measured at fair value through profit or loss. This includes all financial assets derivatives. Upon initial recognition, the Group has the option to choose irrevocably to classify and measure financial assets that meet the measurement requirements at amortized cost or at fair value through other comprehensive income within financial assets at fair value through statement of profit or loss and comprehensive income, accounting inconsistency that may arise.

The accounting policies applied are similar to the accounting policies adopted by the Group (considering that the Group has early application of the initial phase of IFRS 9).

The adoption of IFRS 9 did not have any impact on the Group's interim condensed consolidated financial information relating to financial assets.

Financial liabilities:

The implementation of IFRS 9 has no significant impact on the applied accounting policies by the Group which related to financial liabilities whether. IFRS 9 has retained the requirements of IAS 39 regarding the classification of financial liabilities. IAS 39 requires recognition of the differences in the assessment of financial liabilities classified as financial liabilities at fair value through profit or loss in the consolidated statement of profit and loss, whereas IFRS 9 requires:

- Recognition of differences in the assessment of financial liabilities classified as financial liabilities at fair value through statement of profit and loss as a result of changes in credit risk in the consolidated statement of comprehensive income.
- The remaining amount of fair value valuation differences is recognized in the consolidated statement of profit or loss.

The Group has not classified any financial liabilities in financial liabilities at fair value through profit or loss. There is no intention of the management to classify any financial liabilities in this category. Therefore, there is no impact from the application of IFRS 9, to the consolidated financial statements.

Impairment of financial assets:

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' model. Which requires the use of estimates and judgments to estimate economic factors. The model will be applied to all financial assets - debt instruments classified at amortized cost or at fair value through statement of comprehensive income or at fair value through profit or loss.

Impairment losses will be calculated in accordance with the requirements of IFRS 9 in accordance with the following rules:

- 12 month impairment loss: The expected impairment will be calculated for the next 12 months from the date of the consolidated financial statements.
- Impairment losses for the lifetime of the instrument: The expected impairment of the life of the financial instrument will be calculated until the maturity date from the date of the consolidated financial statements.

The Group measures impairment allowances equal to expected credit losses within 12 months if these assets are classified as Tier 1 and have the following characteristics:

- Debt securities that are determined the have low credit risk at the reporting date.
- Other debt securities, trade receivables and other debit balances for which credit risk has not increased significantly since initial recognition.

While the expected impairment of the life of the financial instrument to maturity is calculated in the event of a significant increase in credit risk that requires the conversion of the financial instrument from level 1 to level 2 or if the financial instrument is applied to specific situations within the Standard and the Group is required to classify these assets Within the second level directly.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

If the financial instrument is impaired or there is objective evidence of impairment as a result of a loss or default after initial recognition with a negative impact on the future cash flow, the financial instrument is transferred to the third level. The expected credit loss model requires recognition of the expected loss over the life of the asset Debt instruments are very similar to the requirements of IAS 39.

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial assets to be in default when:

- The costumer is unlikely to pay its financial obligations to the group in full, without recourse by the Group to actions such as realizing security (if any held).
- The financial asset is more than 90 days of the maturity date.

Measurement of expected credit losses:

The expected credit loss mechanism depends on the (probability of default), which is calculated according to the credit risk and future economic factors, the (loss given default), which depends on the value of the existing collateral, the (exposure at default). The expected credit loss is discounted at the effective interest rate of the financial asset.

Credit classification of impairment:

In each financial period, the Group evaluate the credit rating of financial assets at amortized cost and debt securities at fair value through other comprehensive income. The credit rating of financial assets considered impaired when one or more events that have a negative impact on the estimated future cash flows of the financial asset occurred.

Presentation of impairment:

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at fair value through other comprehensive income, the provision for losses is recognized in other comprehensive income and is not deducted from the carrying amount of the financial asset. The losses of other financial assets are presented under 'Financing expenses' in the same manner as in accordance with IAS 39. Such disclosure is not included in the statement of profit or loss and other comprehensive income, based on material considerations.

Impact of the new impairment model:

For assets in the scope of the IFRS 9 impairment model, impairment losses are generally expected to increase and become more volatile according to financial assets and as a result of implementation on January 1, 2018.

Based on the management opinion, the application of IFRS 9 did not have a significant effect on the condensed consolidated interim financial information since all the debts are recovering within short period from maturity date.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

C - New Standards and Interpretation not yet adopted

The following new and revised IFRSs have been issued but are not effective yet, the Company has not early adopted any of the following new and revised IFRSs that are available for early application but are not effective yet:

<u>Standards</u>	Effective Date
IFRS 16 Leases IFRS 17 Insurance Contracts Amendments	January 1st, 2019 January 1st, 2021
IFRIC 23 Uncertainty over Income Tax Treatments Prepayment Features with Negative Compensation (Amendments to IFRS 9) Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28) Plan Amendments, Curtailment or Settlement (Amendments to IAS 19) Annual Improvements to IFRSs 2015–2017 Cycle (Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23)	January 1st, 2019 January 1st, 2019 January 1st, 2019 January 1st, 2019 January 1st, 2019

13) INCOME TAX EXPENSE FOR THE PERIOD

Income tax expense is recognized based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim period. The Company's effective tax rate in respect of its operations for the nine months ended September 30, 2018 was 10.68% against 10.75% for the nine months ended September 30, 2017.

The tax rate based on prevailing local law is 20% for Al Eqbal Company and Al Fakher Company Amman while it reached 10% from profit of Alfakher Holding Company – Cayman Islands.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

The movement on income tax provision during the period/year was as follows:

In Jordanian Dinar	September 30, 2018 (Reviewed <u>not audited)</u>	December 31, 2017 (Audited)
Balance at the beginning of the year	6,021,753	5,609,153
Provision for the period / year	4,431,363	5,693,123
Income tax paid for the period / year	(5,752,713)	_ (5,280,523)
Balance at the end of the period / year	4,700,403	6,021,753

Group tax position

a- Parent company - Al Eqbal for Investment PLC

The income tax was settled until 2016. The income and sales tax department audited the financial year 2012 where the company has objected on the final decision of the income and sales tax department at court. In the tax consultant opinion the claim was misplaced and will be separated for the company.

The tax return for the year 2017 was submitted within the legal period and the department hasn't audited the company's accounts and did not issue the final decision till the date of the condensed consolidated interim financial information.

In the tax consultant and company's management opinion, the company doesn't need to account any provision for the income tax liability for the business results.

b- Subsidiary - AL Fakher for Trading Tobacco LLC

Al Fakher - Amman

The Income Tax was settled until the financial year 2008. The Income Tax Department audited the accounts of the company and issued its final decision for the financial years 2009, 2010, 2011, 2012, 2013, 2014 and 2015 that was objected to the court of the tax, in the Company's management and tax consultant's opinion, the decision of the Tax Department is misplaced and will be dismissed in favor of the company.

The tax return was submitted for the financial years 2016 and 2017 within the legal period of submission, the department did not audit the company's accounts and did not issue its final decision till the date of the preparation of the condensed consolidated interim financial information.

In the tax consultant and company's management opinion, the company should take a provision by an amount of JD 4,431,363 as a provision of 10% of net profit of the investment in Al Fakher Holding-Cayman Island for the period ended September 30, 2018.

c- Al Fakher - Aqaba private

The Income Tax was settled until 2015. The tax return was submitted for the years 2016 and 2017 within the legal period of submission, the department did not audit the company's accounts and didn't issue its final decisions till the date of the preparation of the condensed consolidated interim financial information.

The division has stopped operating since the end of 2015, and a tax clearance form was sent showing that the taxes owed were paid and clear.

d- Subsidiary - Spectrum International for Renewable Energy

The Income Tax was settled until the financial year 2014. The tax return was submitted for the financial years 2015, 2016 and 2017 within the legal period for submission of statements, the department did not audit the company's accounts and issue final decisions until the date of the preparation of the condensed consolidated interim financial information.

In the tax consultant and company's management opinion, the company is not obligated to take a provision for the income tax liability for the business results.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

14) <u>CONTINGENT LIABILITIES</u>

The contingent liabilities at the date of these condensed consolidated interim financial information are as follows:

In Jordanian Dinar	September 30, 2018 (Reviewed not audited)	December 31, 2017 (Audited)
Bank guarantees	3,916,269	2,405,471
	3,916,269	2,405,471
Against cash margins represented as follows:		
In Jordanian Dinar	September 30, 2018 (Reviewed not audited)	December 31,2017 (Audited)
Bank guarantees	1,671,996	170,755
	1,671,996	170,755

- The Company filed a lawsuit with the First Instance Court to object to the decisions passed on by the Income Tax Department for imposing income tax on the year 2012 with an amount of JD 111,756 in addition to a legal compensation amount of JD 46,123. A decision was issued in the case to accept the lawsuit and prevent the tax department from claiming the company the amount of the tax difference because of a formal error in the procedures of issuing the decision of the Tax Department, and the Court of Appeal supports this decision. The decision became final, considering the possibility that the Tax Department might correct the procedures and return the claim on the company regarding the amount of tax and this will call for a new lawsuit.
- The Group's subsidiary (Al-Fakher for Trading Tobacco and Agencies Company) filed a lawsuit with the First Instance Court to object on the decisions passed on by the Income Tax Department for imposing income taxes for the years of 2009, 2010 and 2011 with an amount of JD 7,843,927 and Legal compensation amount of JD 3,889,245 and 111,372 for the education support fund. The Tax Court decision was issued containing the cancelation of the decision of the Income Tax Department as well as preventing them from claiming the company for the amounts mentioned, and reserving an amount of JD 699,235 for income tax and JD 111,372 for the education support fund and JD 101,233 as a legal compensation. As the company filed a discriminatory appeal against the decision and the lawsuit is currently at the Supreme Court.

Based on the Group's management and tax consultant opinion, the company will not pay additional amounts over the amounts taken since the company took additional provision by JD 212,000 during the first quarter of 2018.

The Group's subsidiary (Al-Fakher for Trading Tobacco and Agencies Company) filed a lawsuit with the First Instance Court to object on the decisions passed on by the Income Tax Department for imposing income taxes on the company for the amount of JD 15,565,252 for the years 2012, 2013, 2014 and 2015 with an amount of JD 9,510,970 as a legal compensation. The case is still pending.

Based on the group's managements and it's legal consultant opinion, the probability of winning the legal case is high, as the income is from a branch and not from an investment. In addition, the company has paid the due payments to the income tax department in Aqaba.

And the company booked an extra provision amounted to JD 1,386,102 for the year 2015.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

15) <u>EARNING PER SHARE</u>

In Jordanian Dinar	For the nine m	
	2018 (Reviewed not audited)	2017 (Reviewed not audited)
Profit for the period for the shareholders (JD) Weighted average for number of shares (Share)	37,047,969 60,000,000	33,241,535 60,000,000
Earning per share for the period	0.62	0.55

Earning per company for the period

The earning per share calculated by dividing the profit for the period on the current number of shares which is equal to 60 Million shares as of September 30, 2018.

The weighted average for number of shares has been adjusted for the comparative year due to that the company has increased its capital through capitalized free 30 Million shares from the retained earnings according to IAS (33).

16) INCREASING CAPITAL

The general assembly decided in the extraordinary meeting on June 3, 2018 to increase its capital amounted of 30,000,000 JD to become 60,000,000 JD by capitalization of 30,000,000 shares from retained earnings. The approval was issued by the Securities Commission on July 17, 2018.

17) FINANCIAL RISK MANAGEMENT

- Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's cash on hand and at banks, Cheques under collection, trade and other receivables and other debit balances.

The carrying amount of the financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the condensed consolidated interim financial information date was as follows:

	Carrying value as at		
In Jordanian Dinar	September 30, 2018 (Reviewed not audited)	December 31, 2017 (Audited)	
Cash at banks and deposits at banks Trade and other receivables Other debit balances	42,493,907 89,925,746 2,775,006	21,543,982 68,633,332 1,015,353	
	135,194,659	91,192,667	

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under normal, stressed and necessary conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that it has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the Group maintains line of credit from its bank for sudden cash requirements.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rate and equity prices will affect the group's profit or the value of its holdings of financial instruments.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency Risk

Most of the group's financial assets and liabilities are in Jordanian Dinar, UAE Dirhams and American Dollars. An increase (decrease) of the JD against the AED at 30 September would have increased (decreased) profit or loss by the amounts shown below and it's considered that exchange rate of JD against USD stays constant. this analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the reporting date when preparing the condensed consolidated interim financial information. And regarding the Turkish Lira, the group booked a translation reserve due to the fluctuation of exchange rate at the date of condensed consolidated interim financial information.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

Interest rate risk

At the reporting date of the condensed consolidated interim financial information the interest rate profile of the Group's interest-bearing financial instruments was as follows:

In Jordanian Dinar	Carrying value		
	September 30, 2018 (Reviewed not audited)	December 31, 2017 (Audited)	
Fixed rate instruments Financial Assets	15,151,891	4,758,702	
Variable rate instruments Financial Liabilities	(204,568,216)	(94,832,702)	

An increase in the interest average rate by 1% will lead to increase in finance expense with an amount of JD 1,534,262 for the nine months ended September 30, 2018. A decrease in the interest average rate by 1% will lead to decrease in finance expense with an amount of JD 1,534,262 for the nine months ended September 30, 2018.

Other market price risk

Equity price risk arises from financial assets at fair value through profit or loss held for meeting partially the unfunded portion of the Group's obligations as well as investments at fair value through other comprehensive income. Management of the Group monitors the mix of debt and equity securities in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Company's management.

Equity price risk

A change of 5% in fair value of the securities at the interim financial date would have increased (decreased) equity and profit or loss by the amount of 5,645 JD. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

18) FAIR VALUE LEVELS

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for financial assets.

Level 2:Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instrument evaluated based on:

Prices quoted in active markets for similar instruments or through the use of valuation model that includes inputs that can be traced to markets, these inputs good be defend directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

Financial Instruments measured at fair value

The Company does not measure financial instruments at fair value except for financial assets at fair value through other comprehensive income.

	Book value Fair value	Fair Value		
In Jordanian dinar		Level (1)	_Level (2)	Level (3)*
September 30, 2018 (Reviewed not audited)
