Introduction

We have reviewed the interim statement of financial position of Dar Al Aman for Islamic Finance Company (Limited Public Shareholding) as at 30 June 2021, the interim statement of profit or loss and other comprehensive income, interim statement of changes in equity and the interim statement of cash flows for the six months then ended, and a summary of significant accounting policies and other explanatory information. Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with IAS (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial statements do not present fairly from all material respects the interim financial position for the Company as at 30 June 2021 and its interim financial performance and its interim cash flows for the six months then ended in accordance with IAS (34) "Interim Financial Reporting".

REVIEW REPORT (Continued)

To the Management of Dar Al Aman for Islamic Finance Company
(Limited Public Shareholding)
Amman - Jordan

Material uncertainty related to going concern

We draw attention to Note (4) to the financial statements which indicates that the accumulated losses of the company represents 39% of the capital. Also, the granting of funds remains suspended until the date of the interim financial statements. These events or circumstances, in addition to the other matters mentioned in the note, are considered an indication of a material uncertainty that may cast significant doubt on the company's ability to continue, as the note shows the company's actions and its future plan to counter that. Our opinion has not been modified in respect of this matter.

2) Basis of preparation

The interim financial statements have been prepared in accordance with IAS (34) "Interim Financial Reporting" and in accordance with local standard. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the 2020 annual report.

3) Significant accounting policies

The Company has applied the same accounting policies and methods of computation in its interim financial statements as in its 2020 annual financial statements.

The preparation of interim financial statements in accordance with Standard (34) "Interim Financial Reporting" requires the use of significant and limited accounting estimates, and it also requires management to use its own estimates in the process of applying the Company's accounting policies.

None of the new standards, interpretations and amendments have any material impact on the interim financial statements.

Use of estimates and assumptions

There are no material changes to the nature and values of the estimates and assumptions used in the 2020 financial statements.

4) Significant events

On 11 March 2020, the World Health Organization declared the emerging corona virus (Covid-19) as a global epidemic and recommended several measures to contain the epidemic, as the (Covid-19) virus disrupted the movement of people and goods around the world, which affected profitability and the ability to continue in the long term for many companies. As a result of the pandemic, the Company is facing difficulties in selling some lands and completing financial settlements with the owners of troubled loans. On the other hand, the pandemic did not have a significant impact on the Company because its activities were already suspended based on the Board of Directors decision during 2017. These events or circumstances are considered an indication of a material uncertainty that may cast significant doubt on the Company's ability to continue as going concern.

Notes forming part of the interim financial statements
For the six months ended 30 June 2021 (continued)

to counter this, the Company restructured its capital, and based on the approval of the General Assembly in an extraordinary meeting, it amortized 4 million Jordanian Dinars from the accumulated losses by reducing the capital so that the Company's authorized and subscribed capital became 16 million shares / Jordanian Dinars, and the legal procedures were completed at official authorities on 13 January 2021. The Company is still striving to provide the necessary liquidity to resume its activities by trying to sell some of the lands seized against debts and also to complete financial settlements with the holders of troubled loans.
