Chairman and Board of Directors Members
Salam International Transport and Trading Company
(Public Shareholding Limited Company)
Aqaba – The Hashemite Kingdom of Jordan

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Salam International Transport and Trading Company (a Public Shareholding Limited Company) (The "Company") and its subsidiaries (The "Group") as of March 31, 2023, and the related consolidated condensed interim statements of profit or loss, changes in equity and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory information. Management is responsible for the preparation and fair presentation of this consolidated condensed interim financial information in accordance with International Accounting Standard (34) "Interim Financial Reporting". Our responsibility is to express a conclusion on these consolidated condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting".

Emphasis of Matters

We draw attention to:

- a. Note (8) of the condensed consolidated interim financial information, which describes projects under construction that are not yet completed.
- b. Note (9) of the condensed consolidated interim financial information, which describes details about advance payments to acquire land for which the ownership has not yet transferred to the Company.

Our conclusion is not modified in respect of these matters.

Other Matter

The accompanying condensed consolidated interim financial information are a translation of the statutory condensed consolidated interim financial information which are in the Arabic language and to which reference should be made.

2. Basis of Preparation

- The accompanying condensed consolidated interim financial information have been prepared in accordance with International Accounting Standard (IAS) 34 "Condensed Interim Financial Reporting".
- The condensed consolidated interim financial information are prepared in accordance with the historical cost principle, except for certain financial assets which are stated at fair value through statement of profit or loss and financial assets stated at fair value through comprehensive income as of the date of the condensed consolidated interim financial information, Furthermore, financial assets and financial liabilities which been hedged from the risk from the changes in its fair value also stated at fair value.
- The reporting currency of the consolidated condensed interim financial information is the Jordanian Dinar, which is the functional currency of the Company.
- The accompanying condensed consolidated interim financial information do not include all the information and notes required for the annual financial statements, which are prepared in accordance with International Financial Reporting Standards and should be read with the annual report of the Company as of December 31, 2022, In addition, the results of the Company's operations for the three months ended March 31, 2023 do not necessarily represent indications of the expected results for the year ending December 31, 2023, and do not contain the appropriation of the profit of the three months ended March 31, 2023, which will be performed at the end of the fiscal year.

Basis of Consolidated Financial Information

- The condensed consolidated interim financial information of the Company and its subsidiaries under its control, the control exists when the Company controls the subsidiaries significant and relevant activities and is exposed, or has rights, to variable returns from its involvement with the subsidiaries and has the ability to affect those returns through its power over the subsidiaries.
- The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control listed above.
- All balances, transactions, income, and expenses between the Company and its subsidiaries are eliminated.
- The subsidiaries financial information are prepared under the same accounting policies adopted by the Company, If the subsidiaries apply different accounting policies than those used by the company, the necessary modifications shall be made to the subsidiaries' financial statements to make them comply with the accounting policies used by the Company.
- The results of the subsidiaries' operations are consolidated in the consolidated statement of profit or loss from the acquisition date, which is the date on which control over subsidiaries is effectively transferred to the Company, Furthermore, the results of the disposed of subsidiaries are consolidated in the consolidated statement of profit or loss up to the date of their disposal, which is the date on which the Company loses control over the subsidiaries.
- The non-controlling interests represents the portion not owned by the Company's subsidiaries; Non-controlling interests are shown in the subsidiaries net assets as a separate line item within the Company's statement of shareholders equity.

Control is achieved when the Company:

- Has the power over the investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect investee's returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control listed above.

When the Company has less than the majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. In this regard, the Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the Company with respect to other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

When the Company loses control of a subsidiary, the Company performs the following:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiaries.
- Derecognizes the book value of any non-controlling interests.
- Derecognizes transfer accumulated difference in Owners' Equity.
- Derecognizes the fair value to the next controlling party.
- Derecognizes the fair value of any retained investment.
- Derecognizes any gain or loss in income statement.
- Reclassifies owners' equity already booked in other comprehensive income to the income statement or Retained earnings as appropriate.

The non-controlling interests represents the portion not owned by the Company relating to ownership of the subsidiaries.

- The Company owns the following subsidiary companies as of March 31, 2023:

3. Significant Accounting Policies

The accounting policies used in the preparation of the condensed consolidated interim financial information for the period ended on March 31, 2023 are consistent with those used in the preparation of the annual consolidated financial statements for the year ended December 31, 2022. However, the Group has adopted the following amendments and interpretations that apply for the first time in 2023 and have not materially affected the amounts and disclosures in the condensed consolidated interim financial information for the period and prior years, which may have an impact on the accounting treatment of future transactions and arrangements.

IFRS 17 Insurance Contracts

IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 Insurance Contracts.

IFRS 17 outlines a general model, which is modified for insurance contracts with direct participation features, described as the variable fee approach. The general model is simplified if certain criteria are met by measuring the liability for remaining coverage using the premium allocation approach.

The general model uses current assumptions to estimate the amount, timing and uncertainty of future cash flows and it explicitly measures the cost of that uncertainty. It takes into account market interest rates and the impact of policyholders' options and guarantees.

In June 2020, the Board issued Amendments to IFRS 17 to address concerns and implementation challenges that were identified after IFRS 17 was published. The amendments defer the date of initial application of IFRS 17 (incorporating the amendments) to annual reporting periods beginning on or after January 1, 2023. At the same time, the Board issued Extension of the Temporary Exemption from Applying IFRS 9 (Amendments to IFRS 4) that extends the fixed expiry date of the temporary exemption from applying IFRS 9 in IFRS 4 to annual reporting periods beginning on or after January 1, 2023.

In December 2021, the IASB issued Initial Application of IFRS 17 and IFRS 9—Comparative Information (Amendment to IFRS 17) to address implementation challenges that were identified after IFRS 17 was published. The amendment addresses challenges in the presentation of comparative information.

For the purpose of the transition requirements, the date of initial application is the start of the annual reporting period in which the entity first applies the Standard, and the transition date is the beginning of the period immediately preceding the date of initial application. Adjustments are applied retrospectively, unless this is impracticable, in this case a modified retrospective approach or a fair value approach is applied.

Amendments to IAS 1 Presentation of Financial Statements – Classification of Liabilities as Current or Non-current

The amendments to IAS 1 affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or noncurrent is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. Adjustments are applied retrospectively.

Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements - Disclosure of Accounting Policies

The amendments change the requirements in IAS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The supporting paragraphs in IAS 1 are also amended to clarify that accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed. Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material.

The Board has also developed guidance and examples to explain and demonstrate the application of the 'four-step materiality process' described in IFRS Practice Statement 2. Adjustments are applied retrospectively.

Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates

The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty".

The definition of a change in accounting estimates was deleted. However, the Board retained the concept of changes in accounting estimates in the Standard with the following clarifications:

- A change in accounting estimate that results from new information or new developments is not the correction of an error
- The effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors

The IASB added two examples (Examples 4-5) to the Guidance on implementing IAS 8, which accompanies the Standard. The IASB has deleted one example (Example 3) as it could cause confusion in light of the amendments.

Amendments to IAS 12 Taxes - Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments introduce a further exception from the initial recognition exemption. Under the amendments, an entity does not apply the initial recognition exemption for transactions that give rise to equal taxable and deductible temporary differences.

Depending on the applicable tax law, equal taxable and deductible temporary differences may arise on initial recognition of an asset and liability in a transaction that is not a business combination and affects neither accounting nor taxable profit. For example, this may arise upon recognition of a lease liability and the corresponding right-of-use asset applying IFRS 16 at the commencement date of a lease.

Following the amendments to IAS 12, an entity is required to recognise the related deferred tax asset and liability, with the recognition of any deferred tax asset being subject to the recoverability criteria in IAS 12.

The Board also adds an illustrative example to IAS 12 that explains how the amendments are applied.

The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period an entity recognises:

- A deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised) and a deferred tax liability for all deductible and taxable temporary differences associated with:
 - Right-of-use assets and lease liabilities.
 - Decommissioning, restoration and similar liabilities and the corresponding amounts recognised as part of the cost of the related asset.

The cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at that date.

4. Judgments, estimates and risk management

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The significant judgments adopted by management in applying the Company's accounting policies and the main sources of uncertainty in the estimation are the same as those applied to the Company's annual financial statements for the year ended December 31, 2022.

We believe that our used estimates for the preparation of the condensed consolidated interim financial information are reasonable and consistent with the estimates approved for the preparation of the consolidated financial statements for the year 2022.

20. Liquidity risk

Liquidity risk, also referred to as funding risk, is the risk that the Company will encounter difficulty in raising funds to meet commitments, Moreover, the Company manages liquidity risk through maintaining adequate reserves and continuously monitoring the forecast and actual cash flows, in addition to matching the maturities of financial assets with those of financial liabilities.

The Company's liquidity position at the date of the consolidated condensed interim financial statements is as follows:

	March 31, 2023 (Reviewed)	December 31, 2022 (Audited)
	JD	JD
Current assets	4,000,849	3,127,277
<u>Less: Current liabilities</u>	<u>(4,149,690)</u>	<u>(3,802,922)</u>
(Deficit) in Working Capital	<u>(148,841)</u>	<u>(675,645)</u>

Management believes that the liquidity risk is not significant as of the date of the condensed consolidated interim of financial statements.

The Company estimates the liquidity risk on a monthly basis, based on long-term future projections, Moreover, the Company evaluates capital and financing requirements periodically, and the availability of liquidity depends on the support from the related parties in addition to the banking financings and selling the land through the waiver.
