

**ARABIA INSURANCE COMPANY - JORDAN**

**PUBLIC SHAREHOLDING COMPANY**

**INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

**30 SEPTEMBER 2023**

**REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS  
TO THE BOARD OF DIRECTORS OF ARABIA INSURANCE COMPANY – JORDAN  
PUBLIC SHAREHOLDING COMPANY  
AMMAN – JORDAN**

**Introduction**

We have reviewed the accompanying interim condensed financial statements of Arabia Insurance Company - Jordan a public shareholding company (The “Company”) as at 30 September 2023, comprising of interim condensed statement of financial position as at 30 September 2023, and interim condensed income statement, interim condensed statement of comprehensive income, interim condensed statement of changes in equity, and interim condensed statement of cash flows for the nine-month period then ended and it’s explanatory notes. The Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with accounting policies stated in note (2). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

**Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with the accounting policies stated in note (2).

**Emphasis of Matter: Basis of preparation and restriction of use**

We draw attention to note (2) to the attached interim financial statements, which describes the accounting policies used. The financial statements are prepared for the purposes of compliance with the reporting requirements of the Insurance Management Department of the Central Bank of Jordan. As a result, the financial statements may not be suitable for another purpose and it is intended only for the use of management, Insurance Management Department and the Securities Commission and should not be used by other parties. This matter does not modify our conclusion about the interim financial statements.

**ARABIA INSURANCE COMPANY – JORDAN**  
**PUBLIC SHAREHOLDING COMPANY**  
**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS**  
**30 SEPTEMBER 2023 (UNAUDITED)**

---

**(1) GENERAL**

Arabia Insurance Company - Jordan was established in 1975 and registered as a Jordanian Public Shareholding Company with headquarters in Amman - Jordan with an authorized capital of JD 2,000,000 divided into 2,000,000 shares, with a par value of JD 1 per share. The Company's capital was increased on several occasions, the last of which was on February of 2008 to become JD 8,000,000 divided into 8,000,000 shares.

The Company is engaged in insurance and re-insurance business including life and general insurance (motors insurance, transport insurance, fire insurance, other damage to property and liability insurance, and the life insurance sector).

According to the resolution of the General Assembly of the shareholders on 30 April 2012, the name of the company was changed on 31 May 2012 to "Arabia Insurance Company - Jordan" instead of "Arabia General Insurance Company".

Arabia Insurance Company - Jordan is 51% owned by Arabia Company (Holding Company - Lebanon).

The financial statements are consolidated with parent company – Arabia Company (Holding Company - Lebanon).

The interim condensed financial statements were approved for issuance by the board of directors in its meeting No. (4) held on 26 October 2023.

**(2-1) Basis of preparation**

The interim condensed financial statements for the nine months ending on 30 September 2023 were prepared in accordance with the instructions of the Insurance Management Department of the Central Bank in their letter No. 17/1/12675 dated 20 July 2023 and in accordance with the accounting policies followed by the Company set out below, as the company did not apply the International Financial Reporting Standard No. (17) effective from 1 January 2023, and continued to prepare the financial statements in accordance with the International Financial Reporting Standard No. (4) according to the instructions of the aforementioned regulatory authorities.

The Jordanian Dinar is the functional and reporting currency of the interim condensed financial statements.

The interim condensed financial statements have been prepared on historical cost convention, except for financial assets at fair value through income statement and financial assets at fair value through other comprehensive income (OCI) which have been measured at fair value at the reporting date.

The interim condensed financial statements do not contain all information and disclosures required for the annual financial statements and should be read in conjunction with the Company's financial statement as of 31 December 2022. In addition, results for the nine-month period ended 30 September 2023 do not necessarily represent an indication of the expected results for the financial year ending 31 December 2023.

#### **Financial assets date of recognition**

Purchases and sales of financial assets are recognized on the trade date, i.e. the date that the Company commits to purchase or sell the asset.

#### **Fair Value**

For investments and derivatives quoted in an active market, fair value is determined by reference to quoted market prices. Bid prices are used for assets and offer prices are used for liabilities.

For financial instruments where there is no active market fair value is normally based on one of the following methods:

- Comparison with the current market value of a highly similar financial instrument.
- The expected cash flows discounted at current rates applicable for items with similar terms and risk characteristics.
- Option pricing models.

The objective of the valuation method is to show a fair value that reflects market expectations.

Where the fair value of an investment cannot be reliably measured, it is stated at cost less any impairment in the value.

#### **A. Financial assets at amortized cost**

Financial assets at amortized cost must be measured if the following conditions are met:

- Financial assets are measured at amortized cost only if these assets are held within a business model whose objective is to hold the assets to collect their contractual cash flows.
- The cash flows according to contractual condition for these assets arise in specific dates and only represent payment for the asset amount and for the interest calculated on these assets.

Assets at amortized cost is recorded at cost upon purchase plus acquisition expenses, the premium/ discount (if any) is amortized by using the effective interest rate method records on the

interest or for its account. Any provisions resulted from impairment in its value is deducted and any impairment in its value is recorded in the statement of income.

The amount of the impairment consists of the difference between the book value and present value of the expects future cash flows discounted at the original effective interest rate.

The standard permits in cases to measure these assets at fair value through statement of income if that eliminates or reduces to a large extent the inconsistency in measurement (sometimes called accounting mismatch) that arise from measurement of assets or liabilities, or profit and loss recognition resulted from them in different basis.

**B. Financial assets at fair value through other comprehensive income**

Equity investments that are not held for sale in the near future.

These financial instruments are initially measured at their fair value plus transaction costs. Subsequently, they are measured at fair value. Gains or losses arising on subsequent measurement of these equity investments including the change in fair value arising from non-monetary assets in foreign currencies are recognized in other comprehensive income in the statement of changes in equity. The gain or loss on disposal of these asset are reclassified from fair value reserve to retained earnings and not through statement of income.

These financial assets are not subject to impairment testing.

Dividend income is recognized in the statement of income.

**C. Financial assets at fair value through income statement**

It is the financial assets purchased by the company for the purpose of trading in the near future and achieving gains from the fluctuations in the short-term market prices or trading margins.

Financial assets at fair value through profit or loss are initially stated at fair value at acquisition date (purchase costs are recorded in the statement of income upon acquisition) and subsequently measured in fair value. Moreover, changes in fair value are recorded in the statement of income including the change in fair value resulting from translation of non-monetary assets stated at foreign currency. Gains or losses resulting from the sale of these financial assets or part of them are taken to the statement of income.

Dividends and interests from these financial assets are recorded in the statement of income.

It is not allowed to reclassify any financial assets to / from this category except for the cases specified in International Financial Reporting Standard.

**Investment Properties**

Investment properties are stated at cost less accumulated depreciation and are depreciated (excluding lands) using the straight-line depreciation method over its casted useful life with percentage between 2% to 12%.

Investment properties are revalued accordance to the Insurance Administration's instructions and the related fair value is disclosed in the related note.

**Cash and Cash equivalents**

For cash flow purpose cash and cash equivalents comprise cash on hand, cash balances with banks and deposit with financial institutions maturing within three months, less bank overdrafts and restricted balances.

**Reinsurance Accounts**

Reinsurers shares of insurance premiums, paid claims, technical reserve, and all other rights and obligations resulting are calculated based on signed contracts between the Company and reinsures are accounted for based on accrual basis.

### **Reinsurance**

The Company engages within its normal activities a variety of inward and outward reinsurance operations with other insurance and reinsurance firms which involves different level of risks. The reinsurance operations include Quota share, excess of loss, facultative reinsurance, and other types of reinsurance. These reinsurance contracts do not eliminate the Company's liability towards policy holders, where in the case the reinsurance fails to cover its portion of total liability, the Company bears the total loss. Therefore, the Company provides for the unrecovered amounts. The estimation of amounts that are likely to be recovered from reinsurers is done according to the Company's portion of total liability for each claim.

### **Impairment in Reinsurance Assets**

In case there is any indication as to the impairment of the reinsurance assets of the Company, which possesses the reinsured contract, the Company has to reduce the present value of the contracts and record the impairment in the statement of income,

The impairment is recognized in the following cases only:

1. There is objective evidence resulting from an event that took place after the recording of the reinsurance assets confirming the Company's inability to recover all the amounts under the contracts terms.
2. The event has a reliably and clearly measurable effect on the amounts that the Company will recover from reinsures.

### **Insurance policy acquisition cost**

Insurance policies issuance cost represents commissions paid to intermediaries and other direct costs incurred in relation to the issuance and renewal of insurance contracts. These acquisition costs are recorded in the statement of income.

### **Property and equipment**

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Property and equipment (except for lands) is depreciated when its ready for use. Depreciation is computed on a straight-line over its expected useful life using the following depreciation rates, and the depreciation expense is recorded in the statement of income:

	<u>%</u>
Buildings	2
Office equipment	10
Computers	12
Vehicles	15
Furniture and interior fittings	6
Air conditions	10
Decorations	15
Boards	20
Elevators	10
Safety and security systems	12
Transformers and generators	10

Depreciation expense is calculated when property and equipment is ready for use, property and equipment under construction is stated at cost less impairment loss.

Property and equipment are written down to their recoverable amount, when its recoverable amounts less than the net book value. The impairment loss is recorded in the statement of income.

**ARABIA INSURANCE COMPANY – JORDAN**  
**PUBLIC SHAREHOLDING COMPANY**  
**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS**  
**30 SEPTEMBER 2023 (UNAUDITED)**

---

The useful lives of property and equipment are reviewed periodically to ensure that the method and

period of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Any gain or loss arising on the disposal or retirement of an item of property and equipment which represents the difference between the sales proceeds and the carrying amount of the asset is recognized in the statement of income.

Any item of property and equipment derecognized upon disposal or when there are no future economic benefits are expected to arise from the continued use of the asset.

**Intangible assets**

Intangible assets are recorded at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

Intangible assets are to be classified on the basis of either definite or indefinite useful life. Intangible assets with definite useful economic lives are amortized over their useful lives and recorded as an expense in the statement of income. Intangible assets with indefinite lives are reviewed for impairment as of the financial statements date, and impairment loss is recorded in the statement income.

Intangible assets include computer programs which are recorded at cost. These assets were amortized by using the straight-line method on the useful life using a percentage of 12% annually.

**Pledged financial assets**

Represent those financial assets pledged to other parties with the existence of the right of use for the other party (sale, pledge). A periodic review is performed for those assets. According to the relevant according polices based on original classifications.

**Provisions**

Provisions are recognized when the Company has an obligation at the date of the financial statements as a result of past events, and the cost to settle the obligation are both probable and measured reliably.

The amount recognized as a provision is the best estimate of the consideration required to settle

The preset obligation at the financial statements date, taking into account the risks and uncertainties surrounding the obligation where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of these cash flow.

When it is expected to recover some, or all amounts due from other parties, the due amount will be recognized within the assets if the value can be measured reliably.

### **A- Technical Reserves**

Technical reserves are provided for in accordance to the Insurance Administration's instructions, as follows:

1. Unearned premiums reserve is measured for general insurance business based on remaining days of the insurance policy of expiration, considering a period of 365 days except marine and transport insurance which is calculated based on written premiums for existing policies at the date of the financial statements in accordance with Laws, regulations and instructions issued pursuant there to.
2. Outstanding claims (Reported) provision is measured at the maximum value of the total expected loss for each claim separately.
3. Provision for the ultimate cost of claims incurred but not yet reported (IBNR) and unexpired risk is measured based on the estimates and the experience of the Company.
4. Unearned premiums reserve is measured based on the Company's experience and estimations.
5. Mathematical reserve is measured in accordance with the instruction and decisions issued by The Insurance Administration.

### **B- Provision for expected credit losses**

The company has applied the standers simplified approach of International Financial Reporting Standard (IFRS 9) and has calculated the expected credit loss on all its financial instruments. The company has established a provision matrix that is based on the company historical credit loss experience, adjusted for formed- looking factors specific to the debtors and economic environment.

### **C- End of service provision**

The end of service provision for employees is calculated based on the Company's policy which in compliance with Jordanian labor law.

The paid amounts as end of service for resigned employees are debited to this account. The Company obligation for the end of service is recorded in the statement of income.

### **Liability adequacy test**

At each statement of financial position date, the Company assesses whether its recognized insurance liabilities are adequate using current estimates of future cash flows under its insurance contracts.

If assessment shows that the carrying amount of its insurance liabilities (less related deferred policy acquisition costs) is inadequate in the light of estimated future cash flows, the deficiency is immediately recognized in the statement of income.

### **Income Tax**

Income tax represents current and deferred income tax.

### **A- Accrued Income Tax**

The accrued income tax expense is calculated based on taxable income. The taxable income differs from the actual income in the statement of income because the accounting income contains nondeductible expenditures and nontaxable revenues in the current year but in the preceding years or the accepted accumulated losses or any other nontaxable or deductibles for tax purposes.

The taxes are calculated based on the laws and regulation in the countries were the Company carry on its operation.

### **B- Deferred Tax**

Deferred taxes are taxes expected to be paid or recovered as a result of temporary differences between the time value of the assets or liabilities in the financial statements and the value that is calculated on the basis of taxable profit.

Deferred tax is provided using the liability method on temporary differences at the liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to allow all or part of deferred tax asset to be utilized.

### **Offsetting**

Financial assets and financial liabilities are only off setted and the net amount is reported in the statement of financial position when there is a legally enforceable rights to set off the recognized amounts and the company intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

### **Revenue recognition**

#### **A- Insurance policies**

Insurance premiums are recorded as revenues (earned premiums) based on the accrual periods and policy covering period. Unearned premiums are recorded according to insurance policy periods at the date of financial statements.

Claims expenses are recognized in the statement of income based on the expected claim value to compensate the insurance policyholder or other parties.

#### **B- Dividend and interest income**

The dividends revenues are realized when the shareholder has the right to receive the payment once declared by the General Assembly of Shareholders.

Interest income are recorded using the accrual basis based on the accrual periods, principle amount and earned interest rate.

#### **C- Rental income**

Rental income from investment properties is accounted for using the straight- line basis over the lease terms.

### **Expenditures recognition**

All commissions and other costs related to the new insurance contracts or renewed are recorded in the statement of income during the year which it occurred. And in all expenditures are recognized using the accrual basis.

### **Insurance compensations**

Insurance compensations represent paid claims during the year and change in outstanding claims reserve.

Insurance compensations includes payments made during the year even for the current or prior years.

Outstanding claims represent the highest estimated amount to settle the claims resulting from events occurring before the date of financial statements but not settled yet.

Outstanding claim reserve is recorded based on the best available information at the date of financial statements and includes the IBNR.

### **Recoverable scraped value**

Recoverable scraped value is considered when recording the outstanding claim amount.

### **General and administrative expenses**

General and administrative expenses are distributed to each insurance division separately. Moreover, 80% of the non-distributable general and administrative expenses is allocated to different insurance departments based on the ratio of written premiums of the department to total premiums.

### **Employees' expenses**

The traceable employees' expenses are allocated directly to insurance departments, and 80% of un-allocated employee's expenses are allocated based on earned premiums per department to total premiums.

### **Insurance policy acquisition cost**

Acquisition cost represent the cost incurred by the company for selling or underwriting or issuing new insurance contract, the acquisition cost is recorded in statement of income.

### **Foreign currencies**

Transactions in foreign currencies are recorded at the rates of exchange prevailing at the transactions dates.

Monetary assets and liabilities in foreign currencies are translated into Jordanian Dinar at rates of exchange prevailing at the statement of financial position date as issued by Central Bank of Jordan.

Non-monetary assets and liabilities in foreign currencies are translated into respective functional currencies at fair value at the respective date.

Gains and losses resulting from foreign currencies translation shall be recorded in the statement of income.

Translation differences on non-monetary items carried at fair value (such as stocks) are included as part of the changes in fair value.

### **(2-2) Business Segment**

The business segment represents a set of assets and operations that jointly provide products and service subject to risks and returns different from those of other business sector which is measured based on the reports used by the chief executive officer and decision maker of the Company.

The geographic segment is related to providing products and services in a specific economic environment subject to risks and returns different from those of other economic environments.

### **(2-3) Use of Estimates**

The preparation of the interim condensed financial statements requires Company's management to make estimates and assumptions that affect the reported amounts of financial assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the revenues, expenses and provisions, as well as the changes in fair value that appear in equity. It's required from the Company's management to make an important judgments to estimate the amounts and times of future cash flows. The estimates are necessarily based on multiple assumptions and factors that have varying degrees of estimation, uncertainty, and the actual results may differ from the estimates as a result of changes resulting from the conditions and circumstances of those estimates in the future.

**ARABIA INSURANCE COMPANY – JORDAN**  
**PUBLIC SHAREHOLDING COMPANY**  
**NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS**  
**30 SEPTEMBER 2023 (UNAUDITED)**

The details of significant estimates made by management are as follows:

- A provision for expected credit losses is estimated based on their principles and assumptions approved by the Company's management to estimate the provision to be established.
- The financial year is charged with its related income tax in accordance with regulations.
- The management periodically reviews tangible assets useful life in order to calculate the depreciation amount depending on the status of these assets and future benefit. The impairment loss (if any) appears on the interim condensed statement of income.
- The outstanding claim reserve and technical reserve are estimated based on technical studies and according to Insurance Administration regulation. Also mathematical reserve and IBNR are calculated based on actuarial studies.
- A provision on lawsuit against the Company is made based on the Company's lawyers' studies in which contingent risk is determined, review of such study is performed periodically.

**(21) FAIR VALUE HIERARCHY**

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether this price can be observed directly or estimated using another evaluation technique.

When estimating the fair value of the asset or the obligation, the Company takes into account the characteristics of the asset or the obligation if market participants take those characteristics into account when pricing the asset or obligation on the measurement date.

The Company uses the following arrangement of valuation methods and alternatives in determining and presenting fair value of financial instruments:

- Level 1: Quoted market prices in active markets for the same assets and liabilities.
- Level 2: Other techniques where all inputs that have an important impact on fair value can be observable, directly or indirectly, from market information.
- Level 3: Other techniques where inputs are used that have an important impact on fair value but are not based on observable market information.

The following table shows the analysis of financial instruments recorded at fair value and in the above hierarchy:

	Level 1	Level 2	Level 3	Total
	JD	JD	JD	JD
<b>30 September 2023 (Unaudited) -</b>				
<b>Financial assets</b>				
Financial assets at fair value through income statement	2,910,001	-	-	2,910,001

**(22) LAWSUITS FILED AGAINST THE COMPANY**

The Company is the defendant in a number of lawsuits amounted to JD 454,907 as at 30 September 2023 (31 December 2022: JD 520,711). The Company has taken sufficient provisions to meet any liabilities from these litigations. In the opinion of the Company's management and its lawyer, the provisions calculated on these lawsuits are sufficient to meet the liabilities from these litigations.

The value of the cases filed by the Company against others amounted to JD 2,229,558 as at 30 September 2023 (31 December 2022: JD 1,885,000).

**(23) CONTINGENT LIABILITIES**

As at the date of the interim condensed financial statements, the Company has contingent liabilities which are represented in bank guarantees amounted to JD 331,364 compared to JD 292,549 as at 30 September 2023 and at 31 December 2022 respectively.

**(24) SEGMENT ANALYSIS**

A. Information about the Company's business sectors:

For administrative purposes, the Company was organized into two business sectors, the general insurance sector, including vehicle insurance, transport insurance, fire insurance, other damage to property and liability insurance, and the life insurance sector. These two sectors form the basis for the Company to show information on key sectors. The two sectors also include investments and cash management for the Company's own account. Transactions between business segments are carried out on the basis of estimated market prices and on the same terms used with other parties.
