REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
TO THE BOARD OF DIRECTORS OF UNION LAND DEVELOPMENT CORPORATION
PUBLIC SHAREHOLDING COMPANY
AMMAN - JORDAN

#### Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Union Land Development Corporation (the "Company") and its subsidiaries (the "Group") as at 30 June 2018, comprising of the interim consolidated statement of financial position as at 30 June 2018 and the related interim consolidated statement of profit or loss, interim consolidated statement of other comprehensive income, interim consolidated statement of changes in equity and interim consolidated statement of cash flows for the six months period then ended and explanatory information. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard IAS 34 interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the independent Auditor of the Entity". A review of Interim financial information consists of making inquiries, primarily of persons responsible for the financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

#### **Emphasis of matters**

- As disclosed in note (10) to the interim condensed consolidated financial statements, investment properties include land plots with an amount of JD 2,785,399 that are not registered in the name of the Group as at 30 June 2018.
- Financial asset at fair value through other comprehensive income includes investments in investment funds with a fair value of JD 1,740,000 not registered in the Group's name as at 30 June 2018.

#### Other matter

Our audit opinion on the consolidated financial statements for the year ended 31 December 2017 was qualified in relation to the facts that the Group did not perform impairment testing on its project under construction amounted to JD 6,913,443 as of 31 December 2017. The Group has restated the effect of the impairment on the opening balance of the retained earnings.

UNION LAND DEVELOPMENT CORPORATION - PUBLIC SHAREHOLDING COMPANY NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS 30 JUNE 2018 (UNAUDITED)

#### (1) GENERAL

Union Land Development Corporation (the "Company") was established as a public shareholding company on 1 August 1995, under the registration number (288) and paid in capital of JD 42,065,129 divided into 42,065,129 shares at a par value of JD 1 per share.

The Company was registered as an entity in Aqaba Special Economic Zone Authority under No. 1101032808 dated 28 March 2001.

The Company's current main activity is the establishment and management of tourism enterprises and the investment of their funds in shares, bonds, lands and real estate development, in addition to the establishment, ownership, operation, management and investment of hotels.

The interim condensed consolidated financial statements were approved by the Company's Board of Directors in their meeting held on 31 July 2018.

# 2) BASIS OF PREPARATION AND ACCOUNTING POLICIES

#### (2-1) BASIS OF PREPARATION -

The interim condensed consolidated financial statements for the six months period ended in 30 June 2018 have been prepared in accordance with International Accounting Standard 34 (Interim Financial Reporting).

The interim condensed consolidated financial statements do not contain all information and disclosures required for the annual financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Group's annual report as of 31 December 2017. In addition, the results for the six months period ended 31 June 2018 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018.

# (2-2) BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS -

The consolidated financial statements comprise of the Company's financial statements and its subsidiaries (together the "Group").

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full upon consolidation.

# (2-3) CHANGES IN ACCOUNTING POLICIES -

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018:

#### IFRS 9 Financial Instruments

IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group had previously implemented the first phase of IFRS 9 as issued during 2009. The date of initial implementation of the first phase of IFRS 9 was 1 January 2011.

IFRS 9 requires the Group to record an allowance for expected credit losses for all debt instruments measured at amortization cost.

IFRS 9 (financial instruments) has eliminated the use of the incurred loss approach under IAS 39 (financial instrument: Recognition and measurement) by including a comprehensive model for the recognition and recording of forward looking expected credit loss, uses the revised hedge accounting framework, and the revised guidance on the classification and measurement requirements.

#### Impairment

The adoption of IFRS 9 (financial instruments) has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing the incurred loss approach with a forward-looking expected credit loss (ECL) approach.

For all debt instruments, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has no debt instruments at amortization cost; therefore, there was no effect on changing the accounting policy as a result of implementing IFRS 9.

# IFRS 15 Revenue from Contracts with Customers

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Union Land Development Corporation - Public Shareholding Company Notes to The Interim Condensed Consolidated Financial Statements 30 June 2018 (Unaudited)

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The impact of adopting IFRS 15 was not material on the interim condensed financial statements and impacted its accounting policy for revenue recognition as detailed below:

#### (a) Apartments sale

The Group has concluded that revenue from apartments sale should be recognized at the point in time when control of the asset is transferred to the customer generally on handling off the apartment. Therefore, the adoption of IFRS 15 did not have an impact on the timing of revenue recognition.

# IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration.

This Interpretation does not have any impact on the Group's interim condensed consolidated financial statements.

# Amendments to IAS 40 Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

# Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled. On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

Amendments to IAS 28 Investments in Associates and Joint Ventures - measuring investees at fair value through profit or loss.

The amendments clarify that an entity that is a venture capital organisation, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. If an entity, that is not itself an investment entity, has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which: (a) the investment entity associate or joint venture is initially recognised; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent.

These amendments do not have any impact on the Group's interim condensed consolidated financial statements

#### (3) STATUTORY RESERVE

The Group did not appropriate for statutory reserve in accordance with the Jordanian Companies Law as these financial statements are interim condensed consolidated financial statements.

#### (14) OPERATING SEGMENTS

The presentation of key segments is determined on the basis that the risks and rewards relating to the Group are materially affected by the difference in the products or services of those segments. These segments are organized and managed separately by the nature of the services and products, each of which is a separate unit and is measured according to reports used by the Group's Chief Executive Officer and Chief Decision Maker.

The Group is organized for administrative purposes through the following sectors:

- Investment Properties
- Land Development

The Group's management monitors the results of the business segment separately for performance evaluation purposes. Segment performance is evaluated based on operating profit or loss for each segment.

A geographical segment is associated with the provision of products or services in a specific economic environment that is subject to risks and rewards that differ from those in other economic environments. All operating segments are linked in one geographical sector.

Revenue, profit, assets and liabilities by business sector are as follows:
